

DRINKS – MENU

At JG we have always been passionate about wine as it goes hand in hand with our food.

We have developed the skills through training and practice to identify interesting reasonably priced wines while appreciating the quality of the Grand marc wines we have the good fortune to offer.

Like food, taste trends in wines continually change and some lesser known or forgotten grape varieties can make a resurgence onto the scene. We like to be on top of this and enjoy nothing more than matching these with our food.

Client interests in cocktails, mixology and micro beers and ales keep us active and motivated to discover the next big hit.

Our extensive drinks menu includes sparkling, wine, soft drinks and an inventive range of alcoholic and non-alcoholic cocktails

We can provide a guideline estimate based on our experience and then invoice on the actual amount consumed at the event.

Or

We can suggest a package of drinks which allow for a certain quantity per guest, which is charged at a fixed price.
